

Amendment 44 proposes a simple change to Colorado statutes. It would make the possession of up to one ounce of marijuana legal for adults 21 years of age and older.

This change in law is important because current law drives adults to use alcohol instead of marijuana, despite the fact that alcohol is far more harmful -- both to the user and to society -- than marijuana.

We know you have been exposed to anti-marijuana propaganda for decades, but before voting on Amendment 44, please take a moment to think about whether the government should punish adults who make the rational, safer choice to use marijuana instead of alcohol.

If you think it shouldn't, vote YES on 44.
