

YES on 44

Amendment 44 would amend Colorado statutes to make possession of up to one ounce of marijuana legal for adults 21 and older.

Alcohol is far more harmful than marijuana to both the user and to society. Yet current law drives adults to use alcohol instead of marijuana.

Please take a moment to think about whether the government should punish adults who make the rational, safer choice to use marijuana instead of alcohol.

If you think it shouldn't, **vote YES on 44.**
